Mobile Developer | Flutter Developer | Android Developer

To Improve and enhance my skills under a reputable IT organization which provide opportunities in Flutter Mobile Development or Web Development. So, where I can utilize my skills, knowledge & experience to maximize my potential with learning opportunities and contribute to the organization in its progress and success.

## EXPERIENCE

24/06/2019 – 30/08/2019

**IT INTERNEE**, CUSTOMER SUPPORT CENTER, BAHRIA TOWN, PHASE 8, RAWALPINDI.

In this I have learnt and practically performed, Networking knowledge and troubleshooting computer problems so that to fix them.

## EDUCATION

SEPTEMBER 2018 - JUNE 2022

**BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY**, AIR UNIVERSITY ISLAMABAD.

I have completed graduation in June 2022. My GPA is 2.84. In my four year of time I have learnt all the basic concepts of IT field. I have chosen Mobile Development as my core area of interest in this period. Another area of interest is Web Development.

- NETWORKING
- ANDROID STUDIO
- Web Technologies (HTML, CSS, BOOTSTRAP)
- Node Red (Beginner)
- Adobe Photoshop, PR, AE.
- C++
- GITHUB (GIT)
- CISCO Packet Tracer.
- YouTube & AdSense
- Python (Beginner)

## PROJECT

### **IOT BASED UNIVERSITY BUS TRACKING SYSTEM.**

Bus Tracking System is Flutter based Admin Web Portal and Student Mobile App which uses Firebase. In this, Hardware is used so that to send bus location data to firebase. Hardware includes Arduino Mega with GPS. Moreover, we've arranged NodeMcu with GPS for easy trial. To view demo video of my Final Year Project, open the link added below in footer. Admin Portal in this project helps admin to control the system (login, buses, stops, admins, students, change password, and real-time). While Student Mobile App helps student to Use the System (bus location, contact admin, change password and login).
